Japan Transport Engineering Company

J-TREC to Exhibit at InnoTrans2024

Japan Transport Engineering Company (J-TREC) will be an exhibitor at InnoTrans 2024, which is the leading international trade fair for transport technology to be held in Berlin, Germany from September 24 to 27, 2024.

We have developed “sustina” which is our brand of high-quality stainless-steel railcars and have supplied a large number of commuter trains for various railway companies. In InnoTrans 2024, we would like to introduce to the world our major brand sustina with its various models e.g. environmentally friendly sustina, and also the technologies including maintenance to cut lifecycle cost with utilizing the comprehensive strength of the JR East group.

■ InnoTrans2024
